VOTE BY NOVEMBER 4TH

Listening and Taking Action

Nancy & Michael know that good government starts with listening. From creating new ways for residents to engage — like the Borough's first Facebook page, online permits, and new advisory boards — to updating the Borough website with more information than ever before, they've made local government more open and accessible.

RESULTS FOR RESIDENTS

Together with the bi-partisan Council and Mayor, Nancy & Michael have delivered on the issues that matter most:

FISCAL RESPONSIBILITY

- Held the tax increase over the past 5 years to a 2.25% average, while maintaining services and making necessary infrastructure investments to our roads, parks, pool, and more
- In 2025, aggressively paid down \$1.9M in debt to avoid higher interest rates
- Fully funded key 2025 capital projects by reducing future debt obligations of more than \$560K
- Secured grants for paving roads, traffic enforcement, crosswalks, sustainability, and new playground equipment at parks

PUBLIC SAFETY

- Won grants for a new crosswalk at Mountain Way/Roberts Garden and a pedestrian walkway on Rt 53
- Initiated a Complete & Green Streets policy to make streets and sidewalks safer for all users
- Added a School Resource Officer (shared service) and a dedicated Traffic Officer
- Supported first responders with police and fire safety equipment and vehicles

OPEN SPACE AND QUALITY OF LIFE

- Acquired Open Space on Mountain Way (county grant), purchased parcels on Jim Fear Drive and Stiles Ave in 2025 to protect from overdevelopment
- Instituted outdoor dining and zoning to welcome Morris Plains' first microbrewery
- Added pickleball courts
- Created a Green Team Advisory Board with residents to recommend sustainability improvements
- Started a Farmers Market Advisory Board to enhance the seasonal market
